

# CaneLink Degree Progress Report

The Degree Progress Report (DPR) in CaneLink ([canelink.miami.edu](https://canelink.miami.edu)) tracks student progress towards completing degree requirements. The DPR includes Requirement Groups, Requirements, Requirement Lines, and Course Lists. This guide assists in navigating progress report structure.

## PROGRESS REPORT STRUCTURE

### 1 In-Progress, Incomplete, and Ungraded Courses

Located at the top of the audit, displays student's **Incomplete**, **In-progress**, and **Ungraded Courses**, regardless of student's school or major.

**In-Progress, Incomplete, and Ungraded Courses**

Your degree program is not complete until you have satisfactorily completed all of your courses and met all other degree requirements

**Degree requirements cannot be satisfied until all course work is complete.**

This report assumes that in-progress, incomplete courses, and other non-graded courses will be completed satisfactorily. Therefore, the report treats these courses as meeting degree requirements.

The following courses were used to satisfy this requirement:

Course	Description	Units	When	Grade	Status
BMB 411	READINGS IN BMB	1.00	Spring 2024		In-Progress
BMB 519	EPIGENETICS & NUTRITION	3.00	Spring 2024		In-Progress
PHY 108	COLLEGE PHY LAB II	1.00	Spring 2024		In-Progress
PHY 202	UNIVERSITY PHYSICS 2-SCIENCES	4.00	Spring 2024		In-Progress

### 2 Unused Courses

Courses are included here if:

- the course was **not** needed to fulfill degree requirements.
- the student has a grade that **does not** meet minimum standards, e.g., W or F.

Note, this section only displays if there is an unused course.

**Unused Courses**

The courses listed below were not used to meet specific General Education, Major, or Minor course requirements. They may have been used to satisfy distribution types of requirements such as writing intensive courses. They are included in the University minimum 120 credits requirement (if they earn credit) and in University cumulative gpa calculations.

The following courses were used to satisfy this requirement:

Course	Description	Units	When	Grade	Status
CHM 221	INTRO STRUCT DYNAMICS	4.00	Spring 2022	F	In-Progress
MTH 224	INTRO PROB & STAT	3.00	Spring 2022	W	In-Progress
UMX 100	UM EXPERIENCE	0.00	Fall 2021	A	Satisfied

### 3 Undergraduate Section

Lists University level requirements, e.g., credits, GPA, and last 45 credits enrolled at the University. Each course taken at the University counts toward overall GPA.

**University Graduation Requirements**

**Satisfied:** University graduation requirements represent the minimum level of academic achievement required to earn a degree. Many majors and minors require higher credit or GPA requirements than the minimum required by the University. In such cases, the major and minor requirements established by the Academic Departments take precedence over the general university requirements.

**University Unit Requirement**

**Satisfied:** Students must earn a minimum of 120 credits to complete their degree requirements. MTH 099, ENG 103, DAN 101, DAN 102, DAN 103, DAN 104, UMI 105, UMI 110, UMI 205, UMI 210, UMI 305, UMI 310, UMI 405, and UMI 410 do not count toward the minimum 120 credit requirement.

- Units: 120.00 required, 126.00 taken, 0.00 needed

**University GPA Requirement**

**Satisfied:** Students must earn a minimum 2.0 UM Cumulative GPA to complete their degree requirements. Only courses completed at the University of Miami are included in the UM Cumulative GPA calculation. Test Credits, Transfer Credits, and any other credits awarded for coursework completed outside of the University of Miami are not included in the UM Cumulative GPA calculation.

- GPA: 2.000 required, 3.456 actual

**Residency Requirement**

**Satisfied:** Students must complete the last 45 credits of coursework toward their degree requirements in-residence at the University of Miami.

### 4 General Electives

Displays completed and transferred elective courses that fulfill the 120 total credits requirement. Once a student has declared a major, additional majors, minors, and cognates are established and automatically fulfilled using any applicable courses within this section.

If the DPR presents two class options, the higher-level choice takes precedence, emphasizing major requirements over minor or elective ones.

When listed here, classes may count towards a major, minor, or cognate, and directives can be applied to satisfy the requirement.

**General Electives**

The courses listed below were used to meet the General Electives requirement.

**General Electives**

- Units: 0.00 required, 41.00 taken, 0.00 needed
